

Linked User-driven Multidisciplinary Exploration Network

FOR THREE YEARS, FROM

JANUARY 2025 TO DECEMBER 2027

The LUMEN project seeks to advance cross-domain collaboration and knowledge exchange by elevating discovery processes across four scientific domains: Mathematics (Maths), Social Sciences and Humanities (SSH), Earth System Science (ESS) and Molecular Dynamics (MD).

20 partners from 10 countries work together to make the vision of LUMEN a reality

Funded with almost 7 million Euro by the European Commission

LUMEN sets out to develop an interoperable set of four discovery platforms to enable researchers to exchange knowledge and gather resources more easily

Funded by
the European Union

Science thrives through collaboration

Join the LUMEN community!

Creating a new discovery ecosystem for scientific collaboration needs the input and engagement of all scientific communities involved.

But how can community members be involved and stay up to date?
